A lightweight game that combines satisfying, snappy card play with the suspense and excitement of sealed-bid auctions.

Bidding & Collecting

It's an auction, place your bids!

Remember, high bidders get to collect their cards first.

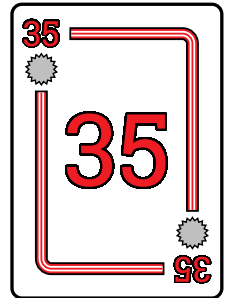

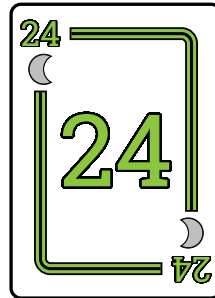

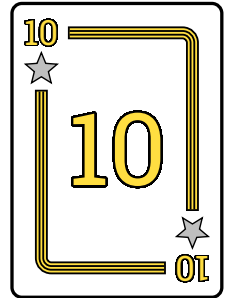

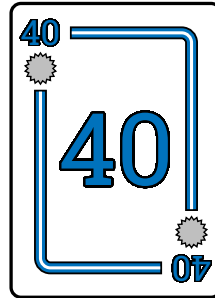

Which card do you want?

Choose wisely! Your score depends on the colours and icons on the cards you collect.

Remember, too, that you will use the cards you collect now to make your bids next round.

Will you take a star card for some guaranteed points?

Or, will you take a high card for future bidding power?

Components & Features

- Fifty double-suited cards create a rich decision space.
- Auctions provide tough choices and tense resolutions.
- Simultaneous bidding minimises downtime.
- Tactical gameplay keeps players engaged from start to finish.
